

Romping in the Hay

Asher joined us February 10th for a road trip to Lodi where Brooklyn and I entered two barn hunt trials. Brooklyn enjoyed some much needed one-on-one time with me and had a great time. Asher was perfectly happy to hang out with Robert while Brooklyn and I romped through the hay looking for rats. No ribbons this time though, we are both out of practice what with very few classes because of the weather.

Foster Puppy Update

Birthday Girls

Robert and I celebrated my birthday on February 6th by going out for dinner then to the city to see the Fabulous Michael Jackson Show. When we arrived home, there was a bouquet of flowers sitting on the porch from Chris! Earlier in the day a package arrived from the Pines with a special present for me, a very nice vest—perfect for the wintery days we have been having (also perfect for our Norway Cruise coming up in May). Kathy always knows exactly what I want!

Sierra's birthday celebration included 9 friends over for pizza, cake, and games followed with ice skating and a sleepover with 3 of the friends

Sierra turned 14 on February 5th!

Atlas aka Emmitt is now in his new home in Pleasanton with Mike and Sandie. Atlas was adopted on February 9th! Mike just retired and Sandie works as a parttime nurse. Emmitt was an immediate hit. Sandie reports he's funny, smart and has a great personality. He loves to snuggle and sometime sleeps on the couch. She thanked us for fostering such a great puppy and that we did an awesome job with him!

This warms my heart.

Asher, 13 weeks old, will be going to his new home this coming Saturday, February 22nd. His new owner, Steven, is also a nurse. Staying with us longer, Asher now has full run of the house and yard and is doing great with his house breaking.

How is it I am now 78?
