

Sierra is Now Nine!

To celebrate, Sierra invited friends over for a sleep-over and made up artists palettes holding dabs of colored fondant for each guest to decorate their own individual mini-cake.

Sierra is not the only who turned another year older. The day after her birthday was my birthday. I enjoyed lots and lots of birthday wishes from facebook friends, cards in the mail, flowers from Chris and Robert and I going out to dinner.

Dakota is 12!

I baked Dakota a peanut butter and carrot cake for her special milestone birthday! She loves her park walks, still chases balls and is always on the lookout for the perfect stick to bring home. And, with her taking scent work classes, she has become so much more of a puppy.

Kathy surrounded by butterflies created by her and her booth partner (pictured below) showcasing their products at the National Stationery Show in New York.

Brooklyn's Award Plaque!

Today was Napa Valley Dog Training Club's annual awards banquet. For the first time ever, I received a plaque for a dog title. The upper left tag shows her Championship title and the date received. What will Brooklyn do to fill the other five tags? A grand championship, agility titles? We are working on both. Last weekend Brooklyn received her 4th Grand Champion point and she has now taken two agility classes.

New York, New York

Four days at the National Stationery Show in New York taught Kathy a lot and resulted in many new connections AND her products being picked up for resale in shops across the country. We are so proud of her!
