

Happily I have been receiving lots of drawing commissions. Since the beginning of the year, I have completed another 4 drawings. The drawing above—one of my most favorite images to work from—is for someone I met at a dog show, The puppy, Cisco, is currently the #2 GSP in the country! The drawings below right were for the breeder Paris came from. After all these years we still keep in touch!

At Morgan's first hunt test put on by the Irish Setter Club of the Pacific last weekend, she took home her first Junior Hunter pass! Three more passes and she will have a Junior Hunter title after her name. And thanks to a fellow dog club member inviting her to a horse stable to expose her to lots of horses, she totally ignored them at the hunt test!

Look who is now 75!

I was looking forward to having a big birthday dinner party this year to celebrate turning 75. When Robert's Mom turned 75, we had a nice dinner party for her with a huge balloon arch and special wood cutouts Robert made in the shape of the number 75; I wanted to re-use them this year along with my own balloon arch just like she had. Nope. Didn't happen this year. COVID-19 put a stop to all that. My kids were good to me though. A new top arrived in the mail from Kathy and a huge bouquet of flowers showed up at my door from Chris.

And Sierra is now 11!

Check out the dragon cake Sierra made! Sierra was inspired by Light Fury, a character from "How to Train Your Dragon."

Sierra received a really nice present for her birthday this year—a 3D printer! Yes, she will be sharing it with the entire family. Maybe next year, she will 3D print her cake and decorations!
