

Thirty & Five

Goodbye Mazda. You came into our life to replace the Honda when it became Kathy's car right after she turned 16. You were the perfect car for commuting to Vallejo and for taking Chelsea, Madison, Paris, Dakota, Brooklyn and Morgan to the park, to the vet, and around town. You were a very reliable car and gave us a good 30 years.

Hello 2020 Pathfinder!

Brooklyn said she wanted to celebrate her 5th birthday on April 11th in our new Pathfinder. She thinks the Pathfinder is her birthday present.

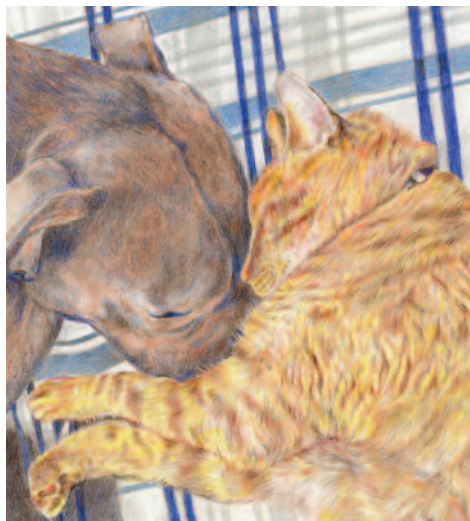

Goodbye Mazda

Hello Pathfinder

**Keep my sister,
Donna, in your
thoughts.
She is currently
in the hospital
undergoing a
number of tests.**

Meow

This big "CAT" showed up in our field a couple of weeks ago. Being in this house since 1982 and on a septic tank caught up to us. We had to have one of two leach lines and the distribution box replaced.

Woof & Meow

A year ago I promised a drawing as a thank you to a lady who runs a local pet day care for all the times Morgan was at her place for free play dates.

It took me over a year to follow through. She asked me to do a drawing of her most favorite dog, Lexi, and her cat, NT, from a photo she treasures. At first I was going to do this in graphite pencil. In the end, I knew black and white would not do this image justice so chose to use colored pencils instead. This turned out so nice, I have to ask myself, why don't I do more drawings in color?
