

Look Who's Twelve!

We celebrated Aubrey's 12th birthday on May 14th Zoom style with lots of family and friends tuned in! See that cake! That's another special birthday creation from the Pine household. Lots of artistry went into making this one, complete with snow covered mountains! Great job Aubrey!

The Sonoma House

The house the Pines moved into in 2009, the house they moved away from to relocate in Oregon, the house they raised their preschooler, their toddler, their baby, and their puppy Axel, the house that was filled with love and countless, beautiful memories closed yesterday! Even with everything it meant to them, they are happy they no longer have to pay two mortgages.

Back to Bird Work

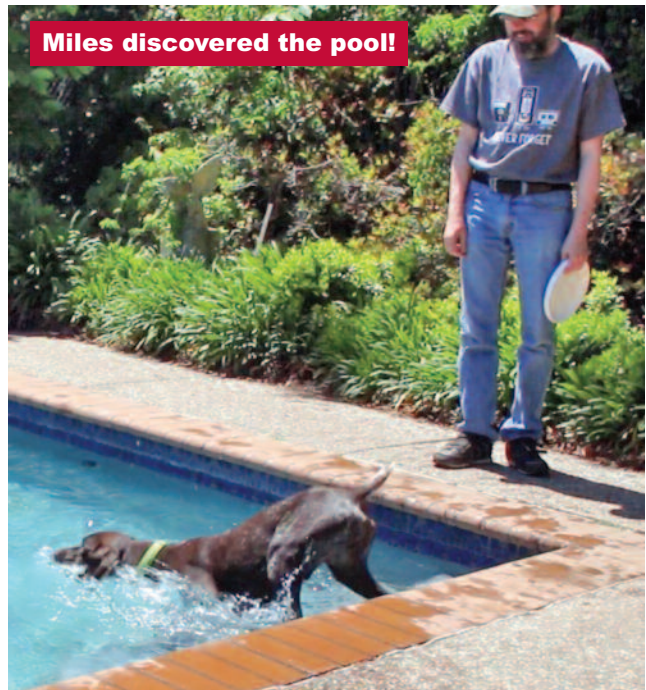

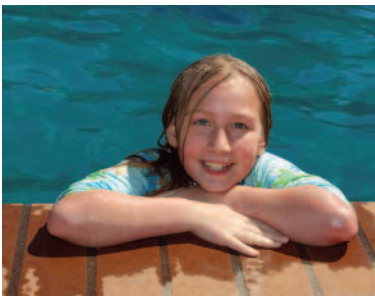

Last weekend, with COVID-19 restrictions pared back at the hunting preserve, Morgan enjoyed another opportunity to run with her littermates and to point birds!

SOLD!

Visitors From the North

Early May, Kathy and Sierra drove from Oregon to spend a week with us. While they were here, Chris and Miles drove down from Sacramento to spend a night. There was lots of pool time (so great the weather was warm enough). Even Miles was up for a dip or two! Sierra enjoyed making special shape pancakes. backyard play, baking & frosting lots of sugar cookies, and going into the pool everyday except one (oh the joys of Grandma and Grandpa's house). When not relaxing, Kathy worked from home (ours).

Our baby chickens graduated to their newly built pen. Now they are all settled in and are totally enjoying the roost Robert put up for them.
