

Birthday Time!

Besides giving Chris a shirt for his birthday on November 1st that says: **BUILT 55 Years Ago ORIGINAL AND UNRESTORED MOST PARTS STILL IN WORKING ORDER** we gave him a certificate to paint his shed!

A Pet Focused Month

Murphy and Mollie are growing fast, Brooklyn and I completed another dancing routine on November 11th for this month's Dogs Can Dance Giving Thanks challenge. We are now down to one routine left to do. If we qualify with a passing score on these last two performances we will earn a Dogs Can Dance Championship, which requires passing a total of eight routines.

Morgan, at six years old, is still going strong in agility and she may have finally settled down enough I can start looking at entering her in a fun agility match. And it won't be long I will be entering her in her first barn hunt trial. In class, she often will find four rats within three minutes This makes her

one advanced class student.

This month is a double GSP birthday month. Miles turned seven on the same day Chris turned 55. Morgan turned six on November 10th.

Mollie on the left and Murphy on the right will be five months old on December 1st. They now have free run of the house with Brooklyn and Morgan being part of their kitten like nonsense. Both dogs are really good with them.
