

Our Foster Pups A Year Later

Emmitt and Asher, pictured above, turned a year old on November 24th. They are two of eight German Shorthaired Pointer puppies from the same litter all of whom were in need of a foster home through [NorCal GSP Rescue](#) back in November of 2023. When Robert and I found out about the puppies, as reported in earlier newsletters, we decided to foster two of them. Having them was quite the adventure. We may well have kept them if we hadn't already had Brooklyn and Morgan. Emmitt was adopted in early February and Asher was adopted in late February. They are very happy in their new homes where they receive tons of attention, go on lots of adventures, and are loved immensely

Dad's 100th with Angels

Hard to comprehend my dad was born 100 years ago on December 9th. On April 17, 1991, he sailed away to be with angels where he is now playing card games, camping by cozy fires, sailing boats, and fixing old cars, TVs, radios, and all things electrical.

Always calm and easygoing, a rock in a storm, hardworking, wise words for his four daughters, caring, and a positive influence. Below are a few of my favorite photos of him.

Gray PEAR Affair Throwback Another book project

I have been going through all my photo albums, negatives, and online collections to gather together every single group photo taken at our annual Gray PEAR Affair family reunions to make a book showcasing them all. I now have ALL the group photos that were taken since the first reunion in 1981 from 35 reunions wherein group photos were taken.

The next step will be to identify each person in each group photo along with including activities, souvenir buttons, and pinatas associated with each reunion. Once completed, the book will be available as a PDF download.
